SECTION I - *Yarns, Fibres and Miscellaneous*

HARRISVILLE DESIGNS YARN

GEMINI FIBRES is a dealer for the Harrisville yarns. These are fine quality wool yarns suitable for use in weaving and knitting projects. Harrisville Designs specialize in spinning 100% Virgin Wool yarns and their yarns are dyed in the wool. Yarn colours are achieved by blending up to four different colours of dyed wool. The Highland and Shetland are available in 64 colours from the brights and vibrant colours to subtle heathers. At present we stock the Highland & Shetland on cones in 64 colours. In July of 2010 Harrisville discontinued several colours and added 22 new colours. A 20% discount is offered on all discontinued highland and Shetland cones remaining in stock.

We stock some colours in skeins in both the Highland and Shetland style yarns. Highland style skeins are prewashed and fulled after spinning, so they will be soft, clean and fluffy, ready to knit. Any of the other yarns are available on an order basis and delivery is 2 - 3 weeks. No minimum required.

DISCOUNT: A special discount of 20% off retail price on Harrisville yarn orders of \$300.00 or more is offered.
A 20% discount is offered on all discontinued colours remaining in stock.

DYES & MORDANTS

GAYWOOL DYES: (Colour Card \$3.00)

For wool, mohair, silk, angora & cashmere. Colourfast, quick & easy to use. Each jar will dye 800g to 1 kg.

Original	15.50/100g
Bush Blends	10.50/ 80g

ASHFORD WOOL DYES: Acid exhaust dyes for protein fibers (wool & silk). Requires vinegar to set.

Colour choices: rust, brown, green, yellow, scarlet, hot pink, purple, teal, blue, navy blue & black.

- 10 gram bottle (enough to dye 1kg fiber)	7.25
- 50 gram bottle (enough to dye 5kg fiber)	18.00
- 250 gram bottle (enough to dye 25kg fiber)	79.00
-Ashford Wool Dyes 12pack, 10g bottles	73.50
Includes all colours listed above.	
-Ashford Wool Dyes 3 pack, 10g bottles	23.00
Includes yellow, scarlet & blue	

MORDANTS:

- Alum	6.00/100g
(used at 25% by weight of fabric, or use less if you are dyeing a light tone)	
- Chrome Use at ½ oz per pound of fabric. (3%).....	7.95/oz.
Colours dyed on a Chrome mordant are exceptionally permanent both to light and to washing. Keep away from children. Always wear gloves, such as dishwashing gloves, when working with any mordant.	
- Citric Acid (Food grade. This is Vitamin "C" powder).....	6.95/oz.
- Copper Sulphate (Called "Blue Vitriol" in old dye books.) .	2.95/oz.
Can be used as either a pre-mordant, at ½ ounce per pound fabric (3%), or as an after-mordant modifier, where you leave it to soak and take it out when the colour has changed "to taste".	
- Cream of Tartar	4.00/oz.
- Iron (Called "green vitriol" in old dye books).....	2.95/oz.
Iron after baths can take any yellow or gold and turn it to a soft green. Reds become burgundies, pinks become plums, and any tannin source (any weed or bark) can be used to make pretty greys, just by adding iron. Usually used as an after-mordant modifier, where you just watch the colour and when it has changed "to taste", rinse it. If used as a pre-mordant, ½ oz per pound is the usual ration = 3%. Do not use too much as it can "weight" and damage delicate fibres.	
- Oxalic Acid (the best acid to brighten Cochineal Scarlet).....	6.95/oz.
- Sodium Dichromate	3.95/100g
- Tannic Acid (beige base for cotton dyeing)	7.50/50g
- Tin Use at ½ ounce per pound of fabric (3%).....	3.95/oz.
Save the mordant bath and reuse by adding ¾ of the amount next time, (assume ¼ of what was added originally is still there). Cream of Tartar may be added to the mordant bath (10 %) to buffer the Tin, which can be somewhat acid, and to soften wool fabric.	

NATURAL DYES:

- Brazilwood Sawdust (Yields reds and pinks)	6.00/100g
- Cochineal (<i>Dactylopius Coccus</i>).....	30.00/25g
Yields scarlet, crimson, plums & lavenders on silk & wool	
- Fustic Wood Shavings (<i>Palo Amarillo</i>)	21.95/100g
Yields golds to soft greens depending on modant used	
- Indigo , Natural (<i>Indigofera Tinctoria</i>)	15.50/50g
Produces an abundant & reliable blue	
- Logwood Chips (<i>Haematoxylon Campechianum</i>) ..	10.30/100g
Yields purples & deepest black	
- Madderroot (<i>Rubia Tinctorum</i>).....	12.00/100g
Produces red, orange, coral and wine	
- Osage Orange Chips	12.80/100g
Produces bright shades of yellow, gold & orange

FORRESTER SPINNING TOOLS

We have been very fortunate to find a talented woodworker right in our own back yard. Tom Forrester is producing all of the following products exclusively for Gemini Fibres in Canada. They are exceptional quality in both the materials and the workmanship. Tom's love of the craft shows through in the end product. All tools are unique, hand-turned, no two alike, using domestic and exotic woods. Imported woods are purchased from suppliers who deal only with wood sources that are environmentally certified and well managed, sustainable forest wood producers.

Spindles For some sample pictures please visit our web site (www.geminifibres.com) or call for current selection.

Pyrography Spindle Series: In keeping with Tom's passion for beautiful and unique spinning tools, he has designed a variety of exquisite hand spindles in which he has used a special tool to "burn" designs (pyrography) into the whorl. Each design has a minimum of 600 free-hand, burn strokes to create this effect. Due to the individual handwork required to create these designs they are made in limited quantities.
